

Senior Alliance/ Project Manager

Water Infrastructure NSW/VIC

Australian infrastructure challenges have been a focus and success story for Abigroup for many years. The need for improvements in infrastructure within water and waste water is pressing for all of us – and Abigroup invites you to be part of the solution.

Abigroup is currently expanding its water/waste water business on the Eastern Seaboard.

This senior position is for an Alliance/Project Manager with experience in successfully delivering large complex water infrastructure projects. Opportunities for the right candidate currently exist in Melbourne and Sydney.

A degree qualification in Engineering is required, strong leadership skills are essential, and experience in relationship contracting will be highly regarded.

Abigroup has an excellent reputation within the industry for providing ongoing professional development and for the retention of its staff. By joining Abigroup you can expect the company to invest in the promotion of its water division, and in your career.

An excellent remuneration package will be negotiated with the right candidate.

For more information on this opportunity please call Amy Warren on (02) 9350 8308 or email your resume to abigroup@constructive.net.au
