

project manager & project engineer

RADIUS MANAGEMENT PTY LIMITED

Excellent Remuneration Packages **Sydney based**

Radius Management is at the forefront of design & construction management for data centres and key infrastructure projects throughout Australia. Their clients include some of Australia's largest telecommunications providers, financial institutions and internet exchange providers.

Ideally with tertiary qualifications within electrical/mechanical and a minimum of three years experience within data centre construction, you will be seeking an excellent opportunity to join a young, dynamic and growing organisation.

For a confidential discussion please contact Daniel Newman on (02) 9350 8302 or email your resume in MS Word format to **daniel@constructive.net.au**
